Life Path

Ascendant In Libra

PROFESSIONAL - LIFE-PATH: Relating

You have a talent for dealing with people. Your social nature combined with a fine aesthetic judgement gives you the opportunity to excel professionally in areas where good taste and an ability to weigh things in the balance are needed. This can vary from creative pursuits dealing with music or objects of beauty, to consultancy or dealing with personnel. You are strongly motivated to create peace and harmony around you, and will often find yourself taking the middle position between warring parties. As a natural diplomat, you will be appreciated by those you come into contact with. Some may feel you are manipulative, but most people benefit from your genuine concern for their well-being. At crucial times in your life, you may appear to be indecisive. You can agonise about taking a decision, and no amount of information gathering will help you. Ultimately you take decisions on an intuitive level.

PERSONAL - LIFE-PATH: Relating

Basically you are a friendly type of person, and you have a genuine and natural interest in other people. You probably come across as a sociable and charming person, and you have a special talent for creating an atmosphere of peace and harmony. Partnerships are alpha and omega for you, and you will seldom be alone in your life. You are willing to make many compromises to ensure that a relationship functions smoothly. Using your ability to see matters from another person's point of view, you can defuse conflict before it begins. However this tendency may be construed by others as a reluctance to confront important matters when they arise, and this in turn evokes a confrontational attitude in those who are close to you. You have a fine discriminating judgement - use this to discern when you should compromise, and when you should make a stand.

Ascendant Sextile Sun

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy.

When reading the following text, please bear in mind that you will for the most part experience only the positive effects of this aspect. You are particularly stimulated to learn and communicate, as regards the matters concerned.

PROFESSIONAL - LIFE PATH: I, myself, me

Whether you would prefer to have a low profile or not, you will often dominate your surroundings through the force of your personality. Professionally you strive to do your very best - for success is a matter of honour for you. You have a magnanimous disposition, and are generous in your dealings with others. Creative work and self-expression must be an important element in your professional life. You stand on your pride too much.

PERSONAL - LIFE PATH: I, myself, me

You have a radiant personality, with a touch of self-importance. You take yourself - and the impression you make on others - very seriously indeed. Some people may

consider you self-centred. You tend at least to be the centre of attention, and although you invest all of yourself when you relate to others, you give your own personal development needs priority. You have plenty of surplus energy, and your playful nature can make you a figurehead for young people.

Ascendant Trine Moon

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

Please remember when reading this section, that the harmonious nature of this contact means that you can use the energies creatively, for the most part without negative effects.

PROFESSIONAL - LIFE PATH: Unconscious attunement

You have an emotionally compelling nature which profoundly affects the feelings of the people you associate with. You are very concerned with the emotional bonds which hold people together, as well as issues of security. You can therefore work for example with the needs of the public in some way especially as related to homes, family or motherhood. You infuse all your work with an emotional investment. A hard professional environment is bad for you.

PERSONAL - LIFE PATH: Unconscious attunement

You are a moody person and will often find yourself affected by fluctuating emotional states - especially through worrying about family matters or security issues. You have a deep appreciation of the power of the unconscious and instinctual behaviour. In your dealings with people unspoken feelings have far greater priority than rational concerns or argument. You are finely tuned to changes in atmosphere, and adjust accordingly.

Ascendant Quincunx Mars

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

It is difficult for you to integrate the energies of these two planets, as they relate to different sense systems in your body. You should make some progress with this after the age of 30.

PROFESSIONAL - LIFE PATH: Undiluted force

You display a rugged personality, and invest energy and enthusiasm in everything you do. An aggressive or overly defensive attitude brings out a competitive attitude in others. This will lead to a number of professional conflicts. You are ever-willing to take up the battle. Nevertheless you are effective in action as long as you are given the freedom to decide things for yourself. You are a good general, but a bad diplomat.

PERSONAL - LIFE PATH: Undiluted force

You create a forceful impression, and people have a tendency to be somewhat nervous when they are around you. Those who know you well will appreciate your forthrightness, but the meek and sensitive will avoid your company - not that you care. You are headstrong, reckless and therefore rather prone to accidents. You are basically

frank and honest, so people know where they stand with you.

Venus In Cancer

PROFESSIONAL - VALUES: Build a loving environment
You have a very strong caring attitude, and you form deep emotional attachments wherever you work. Professionally this may manifest as a need to care for and nurture others. You have a very strong sense of conventional values and are quite careful economically. There may be a talent for dealing with property. Loyalty and security are important career criteria, and if these criteria are fulfilled you work hard and devotedly. Although you may hide your feelings, you are extremely sensitive in relationships, and easily hurt by unfeeling people. Therefore you work best in a protected environment in which there are warm personal relationships, and you are skilled at creating such an environment. As family values mean so much to you, you can be torn between your home and your career.

PERSONAL - VALUES: Build a loving environment
Family feelings are central in your emotional life. Women with this position are motivated to create a warm home atmosphere, cook good food, and generally cater for the needs of the partner. They are looking for a man who will be a good father to the children. Men will be attracted to the mothering type. Communication takes place far more on an emotional than mental level. Faithfulness and family loyalty are essential values, and a relationship will not function without them. If the feelings are hurt, there is a powerful tendency to withdraw emotionally. Love centres around the home, and there is little need to go out and meet people. There is a strong sentimental attachment, even to relationships from the distant past.

Venus In 10th House

PROFESSIONAL - VALUES: Professional taste
You use your profession as a platform for expressing your personal values, and your taste and judgement can have considerable impact on others professionally. Quite apart from aesthetic sensitivity, you are especially good at creating harmony in your working environment, both in your physical surroundings, and especially amongst colleagues. This talent can express itself on a social level, where you can deal with people as part of your job, or even on a physical level, where you can work to beautify people, or deal with precious items. Your ability to appreciate the value of the material world and social connections can bring you the professional status which you desire, if you are prepared to make the effort. You hope success will come the easy way, and if you are lucky, it will. You will be helped on your way by influential women, and you may work with women.

PERSONAL - VALUES: Professional taste
Relationships have a high priority from the point of view of personal status - perhaps because you were powerfully influenced by the values of your mother, or perhaps because of the example of a sister. Your self-esteem is a little too bound up with outside appearances as regards your relationships. You are attracted to people who have

influence and success and tend to marry upwards. Love blossoms in your professional life, and you tend to be romantically attracted to your superiors at work. Later in life you would have great pleasure working with your partner, supporting his or her professional ambitions, or being supported by the partner in yours.

Identity

Sun In Leo

PROFESSIONAL - IDENTITY: Develop self-appreciation
Building a strong sense of personal identity is the greatest priority in your life. You will seek to measure this by the respect or admiration you evoke in others, and by the evidence shown by the results of creative efforts. You have warm human qualities which under normal circumstances ensure that you are at the centre of events and at the focus of other people's attention. It is extremely important for you to feel respected professionally. Prestige and recognition are basic career needs, and with your natural leadership abilities you have the capacity to inspire others through your example. You have a natural affinity for things which exude quality, and you can set the style in your place of work. As long as you feel appreciated by others, you will function well professionally. It grates a little if you have to take orders from others, so you quickly gravitate to leadership positions.

PERSONAL - IDENTITY: Develop self-appreciation
Your relationship to your father has direct relation to your degree of self-confidence. Although you can be warm, gallant and charming, you have a strong need to dominate in partnerships and have a tendency to be attention-grabbing precisely because of insecurity in this area. You are romantic, and not averse to the occasional affair to give your ego the shine it needs. Great challenges in your life occur in connection with your sense of identity. In these periods of crisis you will tend to radically change your image. Your exaggerated sensitivity to the kind of impression you make on your loved one makes way, as you mature, for a stronger sense of self-security based on inner convictions. It is at these times that false pride and elitism bite the dust, and your natural nobility emerges.

Sun In 10th House

PROFESSIONAL - IDENTITY: Professional manifestation
You are capable of having a high professional profile - indeed society demands that you become deeply personally involved in your career. You are a natural leader in your field and it is an advantage for you to strive to become known. More than most you define yourself through what you do, and through how other people judge what you do. You are suited to a profession in which you either are self-employed or employ others. Should you find yourself working in a subordinate position, you may have differences of opinion with your employers. They will think you are arrogant, you will think you can do better than them! Successful leaders become role models for you.

PERSONAL - IDENTITY: Professional manifestation
You are extremely involved in issues of self-esteem and

feel that your own self-worth must be measured by your achievements in society. This attitude stems from the influence of a parent - probably your father - who imbued in you ideas of respect and duty to society. Attaining goals, then, is the strongest motivational factor in your life. The problem is that you tend to move the goalposts in a constant spiral of striving. Perhaps it would be wise to relax more and enjoy the fruits of your labours? Because you identify so strongly with your professional position - you are what you do - you may have difficulty being spontaneous and natural on an intimate or emotional level. You also have a deep need to be respected and appreciated by your partner. Being known or respected makes you take yourself too seriously.

Sun Opposition Moon

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

This aspect shows a strong polarisation in your chart, and difficulty in integrating the principles described. There may be travel and separation in connection with the principles described below.

PROFESSIONAL - IDENTITY: Conscious/Unconscious

As these two planets represent the basic building blocks of character, your success will very much depend on the nature of the aspect between the Sun and Moon, and other planetary influences. The main issue is your ability to assert yourself without unconsciously distorting the reactions you receive from others. Harmonious contacts between the Sun and Moon indicate a talent for nurturing and strengthening others through the capacity to understand them, as well as giving a wealth of creative talents in many areas. Disharmonious aspects give a tendency to misinterpret or distort the reactions of people who have influence in the world. Emotional conflict with people in authority can undermine progress in business life, and this will be connected with some immaturity on your part. Often the problem will lie in environmental instability in which your domestic situation is at odds with professional visions. At the conjunction - or the New Moon there will be a strong self-sufficiency and a strongly integrated character, but it may be difficult for you to get an objective picture of yourself. This would be a definite disadvantage if you have to deal with others on an emotional level.

As you mature you gain greater insight into the role the unconscious plays in human behaviour, and in some cases this can lead to work of a caring nature relating to the emotional make-up of others.

PERSONAL - IDENTITY: Conscious/Unconscious

As the Moon waxes and wanes, it goes through different phases showing its relationship to the Sun. Each phase has a specific effect on personal character. At the New Moon - or conjunction - there is a strong self-awareness, but some frustration as regards getting on in life. Past bonds have a strong hold on the personal nature and will often stand in the way of progress. In relationships the conjunction can make it difficult to gauge one's effect on the partner, and although there is a strong sensitivity, it is felt very subjectively. Often the bond to the parents is rather

unique with this aspect, and the family life is characterised by an insular self-sufficiency. The father may exhibit a strong emotional or caring nature, and the mother may well have strong independent characteristics.

The full moon - or opposition - on the other hand gives almost too much objectivity, and emotional interactions in relationships are quite dominant. There is a tendency to project behaviour and attitudes on the partner, which in reality belong to oneself. This may be due to an upbringing in which there was a strong contrast between the parents. If so, you will have identified strongly with one parent to the detriment of the other.

The half moon - or square aspect - also bring conflict between the identity and emotional needs. As you mature it becomes essential to control inappropriate emotional reactions which relate back to frustration regarding your interpretation of parental conflict.

When the Sun and Moon have a harmonious relationship to each other, through the trine or sextile aspect, there is much greater ease in expressing feelings and ascertaining one's effect on others. Whatever the aspect, you will have a very strong emotional nature, and feel an enormous pull from the past. You will have well-developed instincts and a talents for delving in to the dark realms of the unconscious. Generally speaking with all aspects between the Sun and the Moon it pays to exert the influence of the will on your emotions, so that you gain greater consciousness of the deep-seated emotional programmes which still unconsciously affect your behaviour.

Sun Square Mars

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

In your chart there is disharmony between these two planetary influences, and this will be reflected by many struggles both within your mind, and out in the world.

PROFESSIONAL - IDENTITY: Competition

You are an extremely dynamic person with an excellent sense of when to grasp opportunities. You thrive on competition and love a good fight. You are no diplomat, but in situations which require courage and decision, you are the right person. Women with this aspect may early in life experience many conflicts with dominating or aggressive men, but ultimately these problems are solved by learning to be more self-assertive in a confident manner. You are suited to a job which provides you with a challenge. You have a pioneering spirit and are willing to take on the necessary confrontations to get ahead. You get bored easily, and when you get bored, you can get into trouble. When you encounter an obstacle you tend to bang your head against it until it gives way. It would pay for you to plan more before you act, and strive to be less impulsive. If you find yourself getting into unnecessary conflicts, try to cultivate a spirit of compromise. Winning is a little too important for your ego.

PERSONAL - IDENTITY: Competition

You are the kind of person who likes action, excitement and adventure. Being easily bored you tend to be rather provocative. Women with this aspect may have had a

young or immature father, and in the more extreme cases there may even have been physical violence in childhood. Alternatively the woman with this aspect will have had a "buddy" relationship to the father and become involved with masculine pursuits. Later in life there will be a tendency to be attracted to a very masculine type of man. It may be important for the woman to really respect and look up to the man - but there is often an attraction to rather immature males, who never quite got out of adolescence. Subsequently the man may have great difficulty living up to masculine archetypes which basically exist within the woman's character, and this will lead to conflicts or battles of power, until the woman accepts a more personally assertive role.

Men with this aspect are very concerned about their masculinity and take pride in their ability to compete in the world. Sexual performance and the ability to take on a classic male role in relation to a woman are essential elements in the character. This Tarzan syndrome has its drawbacks. Problems can arise because of lack of sensitivity to the emotional needs of the woman. The man's over-identification with the male role can be perceived as faintly comical by the woman who would probably set greater store by demonstrations of tenderness and affection. The woman tends to be the prize which the man wins and later guards and protects.

Sun Conjunction Uranus

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances.

This connection between two planets shows a fusion of two principles for good or ill. You integrate quite different energies and express them as one process. This manifests as a strong personal character trait.

PROFESSIONAL - IDENTITY: Consciousness change
Your chief contribution to society is your ability to entertain original ideas and experiment with new ways of doing things. You need to work in an independent position or with a company which respects and encourages your originality. You quickly become bored if you have to perform the same functions day in day out. You need to meet people - and you thrive on unusual challenges, especially if they involve travel and dealing with radically different cultures. You may travel long distances to exotic countries, or work with advanced technology. Alternatively you will go your own unique direction in your professional life, developing unconventional talents - perhaps connected with consciousness development in one form or another. You are not one to stand on ceremony either - you hate stuffy protocol and thrive on contacts with young and old, rich and poor. It is your job to pave the way to the future with new ideas and an original life-style.

PERSONAL - IDENTITY: Consciousness change
You are a true individual and other people may regard you as rather eccentric. You like to express yourself through actions which surprise others in some way, and you enjoy embracing ideas which are provocative. You do not like to feel tied down, and function best in a relationship which gives you a lot of personal freedom. Often your friends will seem more important than your family, and as a result

partners can feel that they are unable to establish an intimate contact with you, though you are usually quite open and fair-minded. During certain periods of your life you will choose to change your direction radically. These personal revolutions are often accompanied by new interests of an untraditional nature - for example astrology, electronics and technical matters, or mental powers. You have an electric and rather unstable aura around you, and often your nerves are on edge. People feel uncertain around you as they feel that anything can happen, so you would be wise to put them at ease about your intentions.

IDENTITY - IDENTITY: Consciousness change
Your father was probably unusual in some way, and he will have brought a sense of unpredictability into your life - perhaps because he travelled a lot, perhaps because he was an outsider in some way, or simply because he acted irrationally so that you never quite knew what he would do next. You may have had a friendly - not fatherly - relationship to him, or you may have felt totally alienated. Whatever, there was an aura of tension or excitement in your relationship.

Later in life this evokes a need for you to develop unconventional habits and be different in some way. Moreover, you can adopt a rather distant attitude to your feelings. At its most extreme, there can be a lack of grounding with very little sense of contact with the physical body, and far too much mental activity. Success in your life depends on you coming down to earth with your visions. Factors in your upbringing can lead you to feel that you are an outsider. Actually you would prefer not to run with the crowd, so why worry about being different? This feeling can be utilised positively by helping people who feel they are outsiders.

Sun Square Neptune

This aspect is of medium strength and its influence will often be felt, though not acutely.

There will be great difficulty in integrating these two planetary influences, and the promised harmonious results will only arise after you have expended time and effort.

PROFESSIONAL - IDENTITY: Find meaning in spirituality
On a professional level almost anything is possible for you as long as you feel that what you do is meaningful. Whatever field you choose, your success will not satisfy you unless you work creatively or have altruistic goals. True satisfaction comes when you transcend material goals and personal ambition. You have high, and perhaps unattainable expectations of yourself...and often of others. You have an intuitive insight into others, and a natural creative talent, but you seem to have an unconscious drive to set up situations which guarantee disappointment or failure. You function best when there is an overall ideal that goes beyond your personal needs. There is a talent for working with visions and dreams, and areas of social concern.

PERSONAL - IDENTITY: Find meaning in spirituality
You are a sensitive and impressionable person with a strong need to be able to define who you are. You often

feel that your grasp on reality is not tangible. If life becomes boring or monotonous, this can strike at the very core of your identity. Women with this aspect put their men on a pedestal from which they rapidly fall. In your longing to find an ideal that does not dissolve like a mirage in front of you, you will constantly refine your nature. Your longing and dissatisfaction is the engine of spiritual change in your life. You find yourself by going within yourself. Meaning in life comes when you seek to attain idealistic goals and develop a collective vision which benefits others. You would definitely benefit from meditative practice.

IDENTITY - IDENTITY: Find meaning in spirituality
Your early connection with your father was special in some way. You may feel you had an intimate contact with him on a spiritual level, although later events will prove that you deluded yourself in this respect. But your father will have touched you in some ineffable way. He may have created a special atmosphere of dissatisfaction around him which evoked concern in you. In extreme cases there can be illness, alcoholism or some form of escapism. It is rare for the father to attain his dreams.
Actually you tend to misread people because of your longing for an ideal. Your father will embody this ideal and most probably fail to live up to it, and later you will put others in this role. When you stop having expectations of this kind, you will be able to avoid disappointment. Your dissatisfaction is a friend that guides you towards purifying and refining your life.

Emotions

Moon In Aquarius

PROFESSIONAL - EMOTIONS: Caring humanity
You are a very socially conscious person, strongly motivated to create cohesion in groups. Paradoxically however, you often feel on the fringe as far as your relationships are concerned. You have a taste for unusual environments and function best when you consciously choose alternative relationships where people's differences are more apparent than their similarities. This gives an attraction to foreign environments or experimental life-styles. With your natural friendliness, deep social commitment and group consciousness you will have a special ability for working with people on the social fringe. You have a striking intuition, and may have talents for an unconventional profession.

PERSONAL - EMOTIONS: Caring humanity
You were brought up in an unusual parental environment characterised by rather special family relationships. You probably learned at an early age that it did not pay to be too dependent, and neither does it suit you, as you prefer friendships based on equality and shared interests. As such it is likely that your family relationships were characterised by intellectual principles of equality or liberation, whilst you may have missed the emotional supportiveness most children take for granted, although you may well have had a very friendly relationship to your mother. As many of the deepest bonds in your life are to

true friends or groups, some of your greatest difficulties are experienced when these attachments are broken.

Moon In 4th House

PROFESSIONAL - EMOTIONS: Attachment to the home
Security is a major preoccupation for you, and you may wish to work in areas concerned with the home, land and property, or with areas connected with caring for others, or perhaps on environmental issues. You may have a talent for gardening. You function best when there is peace on the home front, but often find yourself distracted by family worries. Parental bonds, or a reluctance to get away from the family can limit your possibilities to advance professionally. However you are appreciated at work because of your concern for others, and ability to create a comfortable atmosphere. You may like to work from home, or have a job not far from your house.

PERSONAL - EMOTIONS: Attachment to the home
You were profoundly influenced by the emotional atmosphere as a child, and you were very sensitive to parental moods, especially your mother's. This has made you into a sensitive and rather vulnerable person, and you will be strongly motivated to create a caring and secure family environment later in your life. It would be wise to view the ups and downs of family life in a more objective way, rather than allowing your own mood to be constantly affected by changes. Your home is a haven for you, and you become very attached to it. When radical changes effect your home however, you will discover that you have a remarkable capacity to adjust. You need to spend a lot of time at home, and may find great pleasure in looking after your children, cooking, making home improvements etc.

Moon Opposition Sun

Please read page 4: "Sun Opposition Moon"

Moon Quincunx Mercury

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

It is difficult for you to integrate the energies of these two planets, as they relate to different sense systems in your body. You should make some progress with this after the age of 30.

PROFESSIONAL - EMOTIONS: Emotional awareness
You have great persuasive talents because you make an emotional investment in everything you say. At its best you can use these communicative talents to sway the feelings of the people around you - obviously a great asset when speaking to a public. You know how to tune in to the mood of the crowd and have an instinctive talent for saying the right thing. You need to be passionately engaged in your work, and function best in a role which gives you human contact. You work better with people than with things, but there is good business talent, especially as regards property. You are not an analytical type, and your judgements are easily swayed by your feelings. Thus you are easy to read, and will often stumble verbally, when you encounter conflict. You would find success in a career in which you utilised your talent for listening and speaking to

people.

PERSONAL - EMOTIONS: Emotional awareness

You are a person who likes to communicate on an intimate level with those you are close to, though you have difficulty opening up to those you do not know well. Other people are comfortable entrusting their thoughts and feelings to you however. Your word and tone of voice are always tinged by your emotions, and this ensures you a good audience. Your emotions tend to swing a lot, and when you are feeling negative it can be very difficult for you to express yourself clearly. Under extreme emotional conditions you will be rather irrational. You have probably been profoundly emotionally affected by sibling relationships, and even now may have a powerful emotional bond to a brother or a sister. Your school years will also have had a great emotional impact on you, for better or worse. You are extremely sensitive to being criticised or misunderstood on a mental level. In many ways you are able to build a mental bridge between the conscious and unconscious mind, clarifying emotions through mental awareness.

Moon Square Mars

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy.

As there is tension between these two planetary influences in your chart, it will be very difficult for you to achieve the promised beneficial results before the age of 30.

PROFESSIONAL - EMOTIONS: Temperament

You have a dynamic and forceful personality, and generally get your way in your professional dealings. Your greatest enemy is your temperament - you get angry easily, and when you get angry, you take ill-considered actions. So if your job involves dealing with the public, there will tend to be a lot of conflict. You may however function well if your job entails the need to confront people and get things done, but not if it involves diplomacy or sympathy. You are impatient, but on the other hand you tend to invest your heart and soul into your work and get things done quickly and efficiently. However, you create an atmosphere of tension around you, and are extremely sensitive to criticism. You often imagine attacks which do not actually take place, instinctively going on the offensive, or defensive, to deal with supposed threats. Obviously this kind of reaction evokes the very kind of attack you are seeking to avoid. Only by taking a long, cool look at your assertive nature and by developing greater sensitivity and calm as regards others, can you hope to win goodwill in your professional life.

PERSONAL - EMOTIONS: Temperament

You were brought up in an atmosphere of tension which has made you constantly on guard. Perhaps your mother was an unusually aggressive woman, or perhaps there were many struggles in your family life. Whatever the reason you tend to get easily upset now - especially in your domestic life. Women with this aspect are often attracted to emotional men who express their feelings passionately and intensely. However this may be because

of unconscious provocation from the woman, who - never having experienced peace and calm in her early life - recreates the atmosphere of tension through criticism or angry moods.

Men with this aspect tend to have a short fuse, and often go about in an irritated state of mind. By identifying early childhood patterns of tension it may be possible to combat these negative emotional anger-states, which can be the source of a great deal of internal pain. Expression of anger rarely solves anything. It does not pay to let anger out, as you may fondly imagine. It pays to be conscious of the reasons for anger, before it arises.

As you mature and you gain insight into your emotional nature, you can learn to create an atmosphere of excitement around you. You will be inspiring to be with, and moreover, you learn to combat insecurity by giving freedom of movement and encouraging independence in those you are attached to.

Moon Square Neptune

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

There will be great difficulty in integrating these two planetary influences, and the promised harmonious results will only arise after you have expended time and effort.

PROFESSIONAL - EMOTIONS: Develop intuitive sensitivity

You are a supremely sensitive and impressionable person, and this will express itself as a moodiness and indefinable dissatisfaction. Yet you will almost certainly have creative and caring sides to your nature which can stand you in good stead professionally, as long as your job is not monotonous or meaningless. You have a capacity for being very sympathetic and understanding, and this may be a part of your work. You have spiritual talents - perhaps you can work with dreams or the unconscious in some way. You are powerfully influenced by your environment, and including the mood of the people around you. It is wise to choose environments free from pollution, spiritually, emotionally and physically.

PERSONAL - EMOTIONS: Develop intuitive sensitivity

The greatest challenge for you is to attain emotional satisfaction, and this is best done by understanding the nature of your childhood. It is essentially for you to avoid the tempting pleasure of indulging your emotions and sentimentality. You so easily fall into negative emotional states, and this can make life miserable for the people around you. Your emotional impressionability creates serious problems in partnership matters - you simply have difficulty distinguishing the boundaries between yourself and your loved one. You take on the moods of others or absorb negative vibrations from the environment. The older you get the more you realise that this is just a bad habit, based on early conditioning. Avoid jumping into emotional swamps! Having said this, you have a wonderful talent for tuning in to other people emotionally and understanding them in depth. You are a very sympathetic person.

EMOTIONS - EMOTIONS: Develop intuitive sensitivity

As a child you were profoundly influenced by the mood of your mother. You may feel the bond is close, you may idealise your mother, but there are strong indications that she sucked you in to her negative moods, enlisting your support and care. At worst she may have been something of a martyr, or in bad health, at best she was probably rather sad at times. This evoked guilt feelings in you, and an unconscious need to make things better. Actually you are born to be concerned and helpful, so your mother could not really help evoking these feelings in you. The essential thing in your life is to realise how profoundly you were influenced by the emotional atmosphere of your childhood. By making conscious use of the creative side of your imagination, you can learn to avoid the old traps and create a positive environment for yourself and those close to you.

Mentality

Mercury In Virgo

PROFESSIONAL - MENTALITY: Create order

Few people possess your capacity to study and analyse information and present things in such an understandable and factual matter. You can develop considerable expertise in several different mental areas, and you will tend to cultivate a perfectionism in these areas. Your love of detail may mean that you get bogged down, and this can perhaps prevent you implementing your ideas. You are strongly motivated to be of service to others. This can however mean that people will dump tasks on top of you, so it is essential for you to discriminate between what you really want to occupy your mind with, and to curb over-helpful tendencies. You function well in an administrative position, where you have to make concrete judgements about what is useful, and what isn't. Natural secretarial skills are a resource you derive benefit from.

PERSONAL - MENTALITY: Create order

You are something of a perfectionist and have a helpful - if somewhat critical - manner. You have an eye for details and it pains you to see something out of place or done inefficiently. As such you tend to involve yourself in many daily tasks, smoothing out the rough edges and getting things to function. You can exhaust yourself with having too much to do. You are businesslike in the way you express yourself, and you may have a rather chiding tone of voice. At best you are very supportive and a great helper, at worst you tend to undermine others with negative comments. Generally however, you prefer to keep a low profile, both as regards your opinions, and your many good deeds.

Mercury In 11th House

PROFESSIONAL - MENTALITY: Social contact

You are a very stimulating person to be with, and your talent for inspiring other people may be an important factor in your work. You have a lot of ideas about how groups and society in general should function, and this can give you success in the field of social services, education, or any employment in which you can get your ideas across to larger groups. You can learn communication techniques for enhancing group consciousness. In other respects it is

not what you know but who you know that helps you get on in the world - the social network you are capable of building up stands you in good stead for making professional connections.

PERSONAL - MENTALITY: Social contact

Your friendships are extremely important to you and some of your most mentally formative experiences have come from inspiring talks with people who you respect for their intelligence. Belonging to a set of friends or special social group with untraditional interests is the best way for you to express your ideas. You need a wide audience for your ideas, and you can function well in groups who need to hear what you have to say. You also derive great benefit from going on courses which are experiential and group-oriented. Mental contact with others is as important to you as the air you breathe, and in intimate relationships you will still insist on being able to go out and about with your friends.

Mercury Quincunx Moon

Please read page 7: "Moon Quincunx Mercury"

Mercury Trine Mars

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

Because there is a good aspect between these two planets, you can expect the positive consequences to be strong and very creative, and the negative consequences minimal.

PROFESSIONAL - MENTALITY: Sharpness

You have an extremely acute mind, and can generally come to a decision far faster than the average person. You are quick to take action and enjoy the pleasure of outsmarting your competitors. You enjoy the thrill of mental combat. However you often cut corners, and your methods can be questionable. Your brusque manner can evoke considerable hostility in your place of work, so if you find yourself constantly getting into arguments or finding people irritating, you can be quite sure it has something to do with your behaviour. Perhaps you have a tendency to barge in or interrupt conversations, perhaps you speak in too harsh a manner or do not listen enough to others. It pays to plan more patiently, and think twice before you make your opinion known. You would function well in jobs which require tough negotiations or an aggressive verbal style. You have plenty of energy too, and like to travel and meet people. You are a go-getter.

PERSONAL - MENTALITY: Sharpness

You get into too many arguments, and rarely consider the idea that you may be wrong. This truculent manner probably stems from conflicts in childhood with brothers, or perhaps your father. You worked out then that the best means of defence was offence. Yet troubles arise later in life because your frank and direct manner makes people feel that you are offensive. You don't always have to tell people what is on your mind. You hate to be bossed around or told what to do, so make an effort not to act in this way with others. Give them time to express

themselves without interrupting, and resolve to stop criticism and arguments. Women with this aspect are often attracted to rather sharp men who may have questionable morals, or be rather argumentative types, although this is a projection mechanism based on inner conflicts. Men tend to retain adolescent qualities and act at times as if they know everything.

For both sexes it is important to slow down, otherwise the nervous system can be adversely affected. When you channel your enormous energy into creative, fun projects, you can achieve a great deal.

Mercury Sextile Neptune

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy.

When reading the following text, please bear in mind that you will for the most part experience only the positive effects of this aspect. You are particularly stimulated to learn and communicate, as regards the matters concerned.

PROFESSIONAL - MENTALITY: Clarify your thoughts

You have a very refined mental sensitivity which may be expressed through some form of imaginative and creative work. You possess a wonderful intuition, but formal learning and dry facts do not interest you. You can be quite a perfectionist and are very good at spotting mistakes and errors. In your dealings with others, you are very good at tuning in to their ideas, and you will go very far - perhaps too far - to avoid confrontation and argument. You tend to hope difficulties will disappear if you ignore them, and you have a tendency to create a smokescreen around issues. Thus you like to get your own way through being indirect and confusing the opposition. However if you do not make an effort to stick to ethical principles and honest representations, you may find yourself getting ensnared by the stories you create. You have a talent for creative communication - as a writer, in advertising or the media, or as a general part of your work.

PERSONAL - MENTALITY: Clarify your thoughts

In intimate relationships you are very attuned to what your partner is thinking. You are a mind-reader, and as such you often feel you know what another person will say before it is said. Whilst this is often the case, problems can arise because of a tendency to adjust what you say to conform to the other person's supposed expectations, and to hide thoughts and ideas which you think will not be received well. If this habit goes on for too long, you may find that you start living in another world - isolated and misunderstood. Effort must be made to improve communication and to say what is really on your mind. You are oversensitive to environmental stimuli - particularly noise - and partners may feel you overreact or are over-critical in this area. However you do need to be in a peaceful environment to function well.

THE MIND - MENTALITY: Clarify your thoughts

It is quite likely that you experienced many troubles in the early part of your life connect with truth and lies. Your home environment was probably deeply affected by the tendency to fudge issues and avoid discussion. You have a

fantastic imagination, and whilst this is truly a fine talent, you do tend to embroider the truth and this may not have been appreciated by your family. What is more, you learned as a child that it did not pay to speak directly - for one reason or another - and you may have preferred the inner world of your imagination to the outer world of reality. You are an excellent liar when pushed into a corner - and this is partly because you simply wish to avoid unpleasantness.

It is essential for you to rise above the dangers of dishonesty by embracing strict standards. Should you fail to do this, you will be sucked into a spiral of fabrications which directly threaten your sense of reality. By striving for mental purity you can use your extraordinary talents. These can range from poetic imagination to clairvoyant abilities.

Mercury Conjunction Pluto

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

Two energies are unified into one in this planetary aspect, and you will express this energy in a very personal way, for good or ill depending on other factors in your chart.

PROFESSIONAL - MENTALITY: From secrecy to openness

You have an investigative mind and considerable talent for finding out about hidden issues and analysing things in depth. You are also good at keeping secrets. As such you are a natural detective and are able to find the root cause of problems. This is a useful talent in psychological matters, when working with computers or anything requiring fanatical attention to detail. There is an ability to tap hidden sources of information. In your professional life, however, you are inclined to be suspicious, fearing that important information is being kept from you. People can feel that you interrogate them, and they tend to clam up. Sometimes you express yourself far too forcefully and do not allow people to come with their views. Success comes when you overcome communication problems connected with anxiety.

PERSONAL - MENTALITY: From secrecy to openness

You are a rather secretive person; you think hard and deeply, and sometimes you are plagued by compulsive ideas and fears. Much of this is a result of childhood anxiety connected with lies, secrets or lack of communication. Because you do not always let on what you are thinking, you can easily be misunderstood. Put people's minds at rest by clearing up these misunderstandings and strive to be as open as circumstances permit. When your feelings are hurt you can be silent for long periods. And when you are insecure, you tend to be suspicious of your partner. Harmony in relationships comes when you resist the tendency to argue for hours at a time, or to use silence as a weapon, and instead learn to be open and trusting.

THE MIND - MENTALITY: From secrecy to openness

As a child you were deeply affected by secretive behaviour on the part of parents or siblings. You had a strong intuition that important facts were kept secret from you - you may indeed have been lied to in connected with some profound truth. Later in life you may well have discovered

the details of what has been kept from you - this can for example have something to do with secret connections your parents had - for example half-brothers or sisters you never knew about. There is a strong possibility that a family member was extremely non-communicative or silent in a rather disturbing manner. Perhaps you too felt that it was difficult to make your voice heard.

Whatever the actual circumstances, the result of this is a gnawing doubt concerning the truth of what you hear, so that you are often driven to deeply question the motives or actions of others. Sometimes your tendency to cross-examine will drive a partner behind a protective wall of silence for long periods of time; sometimes you too will clam up as a way of applying pressure in a relationship. As you overcome these difficulties you learn to relax more in communication matters. By giving people the time and space to respond to your questions without anxiety, and by allowing people to have their secrets if they so wish, you can attain peace of mind. Ultimately your life will be enriched by the discovery of quite unique mental abilities on a deep psychological level.

Mercury Sextile MC

You will often feel the influence of this aspect, though stronger influences may predominate in other areas of your chart.

When reading the following description, please bear in mind that you are a fast learner and overcome any difficulties involved very quickly. You can expect to use this aspect constructively and harmoniously.

PROFESSIONAL - GOALS: The ideas person
It is important for you to integrate your mental faculties in your career. Teaching, dealing with communication, writing, meeting people and generally creating contacts are all part of the employment spectrum for you. An inner restlessness will ensure that you either seek a career with a variety of interesting functions, or change jobs at regular intervals. The important thing for you is to get your ideas across in society.

PERSONAL - GOALS: The ideas person
You like to have your finger in a number of pies, and although this can be manifested as versatility, you have a tendency to be easily distracted from your personal goals. Changes of views and a restless nature may mean that you move often. A stimulating atmosphere - both at home and in your work - is a prerequisite for personal satisfaction. Children, chatting and play can keep you happy all day.

Values

Venus In Cancer

Please read page 3: "Venus In Cancer"

Venus In 10th House

Please read page 3: "Venus In 10th House"

Venus Conjunction MC

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

This conjunction shows a fusion of energies in you. Both the positive and negative sides of this aspect will be an integral part of your character.

PROFESSIONAL - GOALS: Manifest beauty

You have a talent for expressing your 'sthetic judgement and sense of beauty in your career. Your charming personality enables you to deal equally well with both people as material assets, and you achieve success through the goodwill of others. You hope that success will come to you the easy way, and if you are lucky it will. However you tend to wallow in sensory pleasures, and may be inclined to flaunt your material advantages through conspicuous consumption.

PERSONAL - GOALS: Manifest beauty

You are motivated to maintain a comfortable life-style, and generally have a fine artistic judgement - both as regards how to maintain the home, and how to pursue your career with style. At worst you are inclined to a sumptuousness and conspicuous consumption which borders on bad taste, at best you know how to create a harmonious and peaceful environment.

Drives

Mars In Taurus

PROFESSIONAL - DRIVES: Determination
Basically you like to work hard, and once you get started on a project you work long hours keeping it running. It may take someone else to initiate activity, but you are willing to maintain and consolidate the results. You can be quite comfortable with monotonous work requiring patience and determination. At the same time you have a good eye for value. Knowing what you are worth you expect to be paid well. As you have strong desires, a good income is a necessity for you, and you don't mind working extra-hard for more material benefits. However you would be wise to show more care when buying luxury goods, as you can get carried away. You are a physical person and you can develop special talents connected with the body, massage, muscles, physical training etc. Learning to accept change and developing more flexibility would bring benefit.

PERSONAL - DRIVES: Determination

You have a strong will and will fight hard to keep what you have won. Once you have decided on something, you are very unlikely to change your mind. This stubborn streak can bring conflict. However you remain quite calm in confrontations, unless you are pushed to the limit. If you are, then you are dangerous and unstoppable. Although you can work hard, you enjoy relaxation and luxury, and are easily seduced by the good things in life. Sexual enjoyment is particularly important to you - even to the point of decadence. Men with this position of Mars will be rather dominating, though placid for the most part. Women will be attracted to the reliable type of man, who is able to

provide security and a good economy. Both sexes incline to faithfulness but can come to grief through powerful desires.

Mars In 8th House

PROFESSIONAL - DRIVE: Power dealings

You are a person who knows power. You are often at the receiving end of demonstrations of might, but you are fearless in your response - at least outwardly. This suits you for a job in which you are exposed to danger, or have to deal with the aggressions of others. You have no difficulty identifying an enemy when you see one, and you are ruthless when dealing with him. There is also something of a detective in you, as you like to operate undercover. You may choose to use your talents on an outer level, through a career which demands determination, perseverance and secrecy, or on an inner level in which you deal with psychological problems. You are particularly good at handling trauma and shock - partly because you are no stranger to these things in your personal life. You may have a talent for hypnotism or healing.

PERSONAL - DRIVE: Power dealings

Emotional and erotic relationships make great demands on your energy. Childhood trauma invested you with an amazing power to survive in difficult situations. But this same survival talent sabotages harmony later in life. You are sensitive to, and fearful of, being controlled by another person. As a result you are emotionally defensive and assertive at the same time, and actually end up being in control yourself. The exaggerated need to master developments in partnership can mean that you do not allow the partner room to manoeuvre. There may be jealousy and exhausting emotional power battles. Sexually you have difficulty surrendering. Sex and power become confused. Only by trusting the other and giving up control can you achieve true sexual satisfaction and release. During the course of your life you develop great psychological insight which enables you to overcome and transform the pain of being crucified by your desires.

Mars Square Sun

Please read page 4: "Sun Square Mars"

Mars Square Moon

Please read page 7: "Moon Square Mars"

Mars Trine Mercury

Please read page 8: "Mercury Trine Mars"

Mars Square Uranus

It may be difficult for you to discern the influence of this combination of planetary energies; it is weak and may be outweighed by stronger influences.

In your chart there is disharmony between these two planetary influences, and this will be reflected by many struggles both within your mind, and out in the world.

PROFESSIONAL - DRIVE: Experimentation

You are an extremely dynamic person and you can

perform tasks in a flurry of activity in half the time ordinary mortals take. You need excitement and originality in your work, and you do your best work when a deadline is threatening. When you decide to act, you strike like lightning. However you are best at working in short bursts of energy. Longer periods of activity tire and bore you. You have talent for working with technical matters - for example engineering, computers etc. You may also have a taste for more untraditional work, perhaps connected with New Age fields, consciousness-raising etc. The essential ingredient is freedom to experiment and learn from your own experiences. You are not very good at working in a team because you can react violently to being told what to do. You hate restrictions and orders and you need to go your own way. Other people may experience you as rebellious and you have a tendency to get into trouble with authorities. You are something of a pioneer, and may embark on dangerous travels to foreign lands.

PERSONAL - DRIVE: Experimentation

You are an extremely unpredictable person, and your fear of being limited by relationships makes you demonstratively aggressive when duty is required of you. Men with this aspect give their partner the impression that they can pack their bag and go at any time - in actual fact unpredictability is used as a threat to get their own way. Women with this aspect are attracted to unusual men, particularly from abroad or from some unique environment, - men who can promise excitement and freedom. There is a tendency to be enormously provocative and this can lead to explosive conflicts. This satisfies the ever-present craving for excitement in one way or another. To have peace in a relationship it is important to have some unusual interest or job which brings challenge and fulfilment. A relationship will not provide this in any lasting way. If all goes well you are an exciting person to be with, always willing to take a risk or try something new.

SEX & POWER - DRIVE: Experimentation

An untraditional father or brother will have evoked strong ideals of independence and freedom in you. You long for the open horizon and the unpredictable. This may relate to an atmosphere of tension in your home, where you felt - and feared - sudden changes or threats from males. The atmosphere was overcharged in some way. Actually you are born with an innate need to manifest your will in a dramatic way, and it will have been very difficult for your parents to control you. You will have experienced discipline as an unjust attack on your personal integrity, and this makes you even more provocative. With this attitude you will come into a spiral of conflict with authority. You don't want to learn from their experience, you want to learn from your own. If you can understand these rather hidden provocation patterns, you can learn to get on with others, even though you do go your own way. You do not have to be such an outsider.

In sexual matters you also have a taste for excitement. Not for you every Saturday when the children are in bed - unless there is an element of unpredictability you can quickly lose interest. Although sex manuals talk of the need for a long period of foreplay, this can actually be

tedious for you - with your strong sexual magnetism, why wait?. There may be an interest in advanced sexual techniques and instruments of pleasure. Periods without sex create a strong sexual tension, and there is a tendency for the male to have premature orgasm because of a high level of expectation. Sex for you needs to be a surprise, and it can take place anywhere. The people who established the 5 mile high club probably had Mars/Uranus aspects. In some cases there may be early experiences of danger or the tabu connected with sex, which means you have to recreate a situation of tension to experience release through orgasm. In extreme cases women who have this aspect may be very provocative prior to love-making.

Mars Opposition Neptune

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy.

As these two planets are on opposite sides of your horoscope they indicate that you are split between two quite different drives. As a result you tend to imagine other people with the negative qualities described.

PROFESSIONAL - DRIVE: Refine your desires

Learning to be motivated and being able to define what you really want to do is one of the greatest challenges for you. You have many talents, especially on the creative side, and these can express themselves in advertising and marketing, matters concerning body energies (for example healing and massage), and many other areas - including social care. Paradoxically you have high ideals, yet may get involved in ethically questionable ventures. You can be driven by a nagging dissatisfaction connected with the meaning of what you are doing, and you thrive best when you work creatively or for a cause which transcends material interests. Doing something you believe in is what motivates you. You have strong socialist impulses.

There is an extraordinarily repetitive theme about being cheated which can affect your working conditions. You will experience on occasions that people go behind your back or over your head - seemingly without any explanation. This is connected with your perfectionism and a tendency to express dissatisfaction. People hide things from you partially to avoid experiencing your disappointment. If you analyse your own behaviour you will discover that you also have a tendency to hide things from others! By being honest and accepting apparent imperfections, you can avoid unpleasant repetition of these happenings. It is also important for you to speak your mind and take a confrontation when it arises, to clear the air.

PERSONAL - DRIVE: Refine your desires

There is no doubt that moral issues are a big challenge for you in your life. Early experiences may have inclined you to be wary of acting spontaneously and openly, and this can give rise to great misunderstandings and often deceit in relationships. Women with this aspect will often find themselves getting attracted to men who disappoint them, perhaps through lying or being unfaithful, or through alcohol misuse. Men have problems regulating their material and sexual appetites.

Women are attracted to creative, artistic or spiritual men, who fulfil their inner need to also develop these qualities. Whilst falling for a sensitive man however, there is paradoxically a fear of weaknesses in the male. An exaggerated focus on these supposed weaknesses and a fear of being lied to by the man actually causes the man to conceal his true desires and needs. This can result - in extreme cases - in a double life. The man with this influence cannot find satisfaction in simple material and sexual gratification, no matter how hard he tries - and he tries hard. Happiness comes when both sexes learn that satisfaction is only to be found in creative or spiritual goals. Partnership will not in itself provide it. Dissatisfaction has to be seen as a divine discontent which drives the person to higher achievements.

SEX & POWER - DRIVE: Refine your desires

This influence evokes a feeling of vulnerability and satisfaction in both the man and the woman. In childhood you will have been witness to weakness and despair in either the father or a brother. Your father will probably have initiated you into his fears and disappointments, you may have experienced him in tears, or drunk, or confessing sexual unhappiness. As a result you have developed a genuine concern, but at the same time you wish to avoid getting involved with anyone who exhibits similar failings. You are both repulsed by weakness, and attracted to it, because on the deepest level you know that it exists within you.

Women unconsciously project their fears in this respect on men, and every sign of weakness in the man will activate the anxiety connected with childhood. Everything becomes a test for the man - and he is doomed to fail. Often the woman will choose a man who has inherent flaws in his character, but even the man without so many flaws will start to exhibit them. At first, however, there is a tendency to over-idealise the man, refusing to see any weaknesses. As early romantic love fades, weaknesses become apparent, and there is a feeling that the man has changed character, although of course he has just reverted to being himself.

The battleground for men is in the fulfilment of desires. Often there is a weakness for alcohol or drugs and sexual escapades - it is as if one is striving to be seduced by life. In the last analysis the test is a spiritual one - ultimately one learns how transient the fulfilment of desire is. The desire for sexual gratification is powerful, yet in some ways unreachable. There is a strong tendency to be unfaithful, and this is connected with the unrequited dream for sexual satisfaction. Routine sex quickly results in boredom - there is a need for magic, romance, wine and the spirit of seduction.

Women will often experience male partners being unfaithful - in some cases with parallel relationships which continue secretly for many years. There is a subtle reason for this and it can be avoided. First of all there is a tendency to be very considerate on a sexual level, and this can result in having sex, when you do not really want it. This may mean regular sex without the erotic spark. The man will feel that he is not really satisfying the woman and will tend to seek sex elsewhere. The answer to this is of course only to have sex when you really want it, and to

ensure the right seductive atmosphere. Erotic fantasies play an important role with this planetary influence, too, so it pays to share them. Unfaithfulness in this case starts with isolation during the actual sex act.

For the man, sexuality can be almost a plague - the search for the ultimate orgasm. Actually the whole point of this influence is to learn to refine sexual impulses. There can be great healing talents and unusual physical abilities - particularly as regards yoga, T'ai Chi, physiotherapy etc. - when this lesson is learned.

Mars Trine Pluto

This aspect is of medium strength and its influence will often be felt, though not acutely.

Please remember when reading this section, that the harmonious nature of this contact means that you can use the energies creatively, for the most part without negative effects.

PROFESSIONAL - DRIVE: Cutting through decay

This influence has a major effect on your career. In your life you are confronted with the issue of power - and powerlessness. You may not be aware of how forceful you are, and therefore you often encounter confrontations and get involved in power battles. Your strength in this area equips you to deal with crisis situations which other people would rather avoid. Thus you can get involved politically or socially, perhaps in trade union activity or in the corridors of power. Although you have a lot of abilities in this respect you may not find great satisfaction in these areas. You have a good deal of psychological talent, and may find fulfilment in helping people in crisis, or people who have adjustment problems. You may have psychic or healing talents.

You work hard and very intensely, often into the late hours, and actually you may have difficulty knowing when to stop. It is important to identify this obsessive quality, otherwise you can drive yourself to collapse. By structuring your working hours, you can avoid exhaustion. Life would be easier for you if you were more relaxed. You are very sensitive to what you consider the misuse of power - this is connected with humiliating situations connected with will and power in childhood. Later in life you run into similar situations, especially with authoritarian or dominating - even tyrannical - men, and you tend to overreact. This leads to battles of the will which are quite exhausting - even more for others than yourself. These situations are best defused by seeing them in a different light. By clearly showing others the limits you are prepared to accept, and by sticking to them diplomatically, you can win respect and avoid power games. Remember, if your motives are straight, you will attract people who will be straight with you. It is important for you to think positively about others. You are a powerful ally and a dangerous enemy.

PERSONAL - DRIVE: Cutting through decay

You have experienced a number of deep traumas in your childhood through events which may be secret or repressed. This can be linked to the influence of men - particular your father or a brother. Often a stepfather or half brother plays an important role. Sometimes a sexual

theme is involved. You may also have been deeply affected by someone who had a deep psychological problem. In some way your will was totally overridden at some point in your childhood, and you are profoundly affected by the humiliation this incurred. It is also possible that you experienced your father - who was dominating, but weak - being humiliated in some way.

Later on, intimate relationships are characterised by great intensity and power games. There is a need for a strong partner who can stand up and fight his or her own battles. Women with this aspect are profoundly attracted to magnetic and powerful men. Such a relationship develops predictably: where the man initially starts as the dominating figure, the woman begins to discover weaknesses as time goes by, and in doing so loses respect. When the relationship ends, the roles have been reversed and the man often ends up in a humiliating position.

Men put too much focus on sexuality and the need to demonstrate masculinity. Jealousy and control can be dominating, though concealed, factors in love. The relationship tends to be marred by criticism of weaknesses and bitter discussions over influence. Often therapy can solve difficulties connected with the complex psychological projections involved in this kind of relationship. As time goes by you will discover the benefits of your enormous energy resources and latent power. As a result you stop struggling against imagined power misuse, and simply no longer feel threatened. Deep satisfaction comes from discovering psychological and psychic talents.

SEX & POWER - DRIVE: Cutting through decay

Sexual relationships are an important battlefield for you. The man with this aspect will often demand sex several times a day - or alternatively cultivate an incredible sexual control - and strangely enough this is more because of a need to prove something to himself, than because of true desire. There is a kind of mechanical perfection with the sex act, and a deep obsession with sexual desire and taboos. The man's partner will naturally enough find these demands exhausting, and feel that tenderness is lacking. For a woman, the fear of being powerless makes it extremely difficult for her to surrender to the pleasures of sex. This can lead her to take the initiative in sexual matters, yet paradoxically there will be a secret desire to be rendered totally helpless by a masterful lover. There is a deep need to have a spiritually transforming sexual relationship. This may be possible through some kind of tantric sexual practice, but ultimately happiness in this area is based on a restraint which allows sexual energy to build up over a period of time, and the ability to enjoy passively and surrender.

Mars Sextile MC

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

When reading the following description, please bear in mind that you are a fast learner and overcome any difficulties involved very quickly. You can expect to use this aspect constructively and harmoniously.

PROFESSIONAL - GOALS: Warrior

You have the warrior mentality, and tend to go for your goals with irresistible energy and enthusiasm. You will be no stranger to conflict on your way to the top, and this is as much due to your own aggressive attitude as to the behaviour of your superiors. You function best when you are master of your own fate. You are suited to any field which requires courage, action and a pioneering attitude. You thrive on competition.

PERSONAL - GOALS: Warrior

Your upbringing was characterised by tension and struggle, and this has given rise to the conviction that you have to fight to get to the top of the heap. As such you are wilful and combative, and this will affect both your career and your domestic harmony - or lack of it. At home it is better for you to channel your energy into activity rather than irritation. You are a busy person, and you will get on in life.

Wisdom

Jupiter In Libra

PROFESSIONAL - WISDOM: Trust your judgement

Your concepts of fairness and principles of justice and equality endow you with the ability to arbitrate between people. You see both sides of an issue, and you know what is in balance, and what is not. As a result people come to you for advice, and have profound respect for your conclusions. The potential for success exists in all matters where you apply your aesthetic judgement - whether it be on an artistic level, or in connection with human relationships. You can succeed particularly well in partnership with other people, and generally you are the one who can smooth the waters when trouble arises. An instinctive sense of harmony is an invaluable aid for you, when planning your future. You can visualise future issues and weigh them in your imagination, and this capacity leads to many wise decisions.

PERSONAL - WISDOM: Trust your judgement

You were born at a time of increased international diplomacy. Nationally the spotlight was on cultural and aesthetic issues. And on a general level it was a time of positive new trends in human relationships. You are inclined to build up a wide network of social connections and benefit from the goodwill of influential friends. With this influence in your horoscope, you have the capacity to be superior judge of issues, cultivating values of impartiality and fairness. Your personal fascination with the ideal relationship can mean, however, that as far as romance is concerned your judgement is not always so wise! Love affairs can lead you astray. Generally though, your talents incline you towards very rewarding relationships because you are always willing to view matters from the point of view of your partner and compromise when necessary. However you will not compromise when you feel that an injustice is being done on matters of right and wrong you have strong convictions.

Jupiter In 1st House

PROFESSIONAL - WISDOM: Gain understanding

In some ways you have a larger than life image, with considerable intellectual charisma. Generally you will take an optimistic view of life's challenges, and seek to gain a deeper understanding of the meaning of your existence. Professionally you have the ability to motivate others through your example, especially as regards empowering others with hope and faith in what the future may bring. Other may come to you for professional advice, and your opinions will generally carry weight. Intellectual, philosophical or religious interests, coupled with a desire to expand your horizons, may play a part in your career. Important journeys can bring profound changes in your views about life, and work abroad may have appeal for you. You receive a considerable boost every 12 years of your life, as Jupiter returns to its birth position.

PERSONAL - WISDOM: Gain understanding

You will have considerable influence on others through your opinions. At best you can really expand the vision and understanding of others, but at worst you can be rather intellectually dominating. You like to embrace broad views and have little time for triviality - though plenty of time for humour. You enjoy life and know when not to take things too seriously. Other people can feel small or even ignorant in your presence - make allowances for this. You have deep convictions on a religious, political or philosophical level and probably enjoy a good discussion. Generally you display a great appetite for life, are willing to take a gamble and often ride to success on your unshakeable faith in a benevolent future.

Jupiter Conjunction Neptune

You will often feel the influence of this aspect, though stronger influences may predominate in other areas of your chart.

This conjunction shows a fusion of energies in you. Both the positive and negative sides of this aspect will be an integral part of your character.

PROFESSIONAL - WISDOM: Expansive dreams

As these planets are relatively slow-moving their influence is felt most on a collective level. Insofar as you channel their influence in your profession you will wish to work on the collective effect of knowledge, the intellect and social influence. There may be a talent for marketing or advertising or selling a dream or vision. There can also be a drive to evangelise on a social, religious or political level. You can be strongly motivated by altruistic ideals and identify with some kind of vision or dream that transcends your own dreams. On a more down to earth level there can be a talents for dealing with oil and related products - particularly plastics. There may also be an interest in oceans, the film industry and anything which enchants on a collective level. You can be hopelessly overoptimistic - heed realistic advice!

PERSONAL - WISDOM: Expansive dreams

This influence shows that you can be moved by dreams and visions. There will be some aspect of your life in

which you are touched by something magic that completely transcends your everyday life. This can bring great happiness, if you choose to cultivate your intellectual drive towards greater spiritual understanding through creative, artistic or meditative interests. At the same time there may be a total lack of grounding, or a tendency to be completely absorbed by unrealistic ideas. There are dreamers of dreams who achieve nothing, and weavers of dreams, who can bring visions down to earth. Ultimately people will be disappointed in you, if you are the former. You have the capacity to make faith and hope guiding lights for your actions.

COLLECTIVE - WISDOM: Expansive dreams
As Jupiter takes 12 years to go around the Sun and Neptune 165 years, the two planets meet in a conjunction cycle every 13 years. It is a time of spiritual progress. At this time humanity is gripped by great hopes concerned with an ideal future of some sort. People work to achieve Utopia - and though as a rule disillusion comes, there will be a period when people are joined in unselfish love for a shared ideal. This is a time when the bubble expands, when optimism exceeds all bounds, when the balloon rises to the greatest heights. Before everything comes down to earth again the human soul is enriched and touched by the divine. Intangible things become tangible in a magical way - there can be a special emphasis on music, art and the media.

Jupiter Conjunction N. Node, Jupiter Opposition S. Node

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy. This connection between two planets shows a fusion of two principles for good or ill. You integrate quite different energies and express them as one process. This manifests as a strong personal character trait.

PROFESSIONAL - DESTINY: Wisdom in emptiness
Your counsel may be sought on a wide range of issues, and you may be able to attain an influential position in large groups or organisations, because of your judgement and visions of the future. You may get involved in social projects on a grand scale, though there is a danger of being seduced by magnificent mirages because of a faulty ideology. You will grow to understand the hollowness of prestige and adulation, and will perhaps later seek refuge in a place of retreat.

PERSONAL - DESTINY: Wisdom in emptiness
You may seem a larger than life character in the circles which you frequent. You gravitate towards people who have influence and power, whether financially, socially or intellectually. Meeting people who you respect for their views and opinions is an important formative process during your life. You tend to go overboard when propagating your own philosophical ideas, but later in life you may develop a more meditative attitude to the nature of truth, perhaps through some religious experience.

Challenges

Saturn In Sagittarius Retrograde

At birth this planet appeared to be moving backwards relative to the Earth. You will learn special lessons in connection with attachments to people and things from the distant past, and a turning point will arise, at some point in your life, in the matters described.

PROFESSIONAL - SELF-RELIANCE: Wisdom through experience
Saturn went through this sign in the years 1926-29, 1956-58 and 1985-88. These transits heralded periods of hectic international activity, with emphasis on expansion of intellectual as well as geographic boundaries. If you integrate this influence in your professional life, there will be advancement in areas concerned with higher education, ethics and the law, or perhaps on travel and international organisations. You may feel that you have to overcome an inner insecurity concerning your intellectual ability or capacity for making wise judgements, and by doing this you will slowly but surely increase the breadth of your knowledge and understanding. If you achieve success in these matters, you will acquire considerable authority in some sort of council or panel, which concerns itself with giving advice. You have to guard against being too severe or moralising.

PERSONAL - SELF-RELIANCE: Wisdom through experience
There was a strong emphasis on world events at the time of your birth and you may have been subjected to strong opinions regarding politics, social issues or religion which will have had a formative effect on your personal convictions today. You will have been more or less affected by a tendency by your parents or society to moralise or exert ideological influence. This may be reflected negatively in your own character by your having restrictive and conventional views about everything, or positively by your overcoming this influence and developing your own convictions based on personal experience. It is particularly important that you build up a strong set of philosophical values which can help you explain the meaning of your existence. There is a tendency to be rather negative about the future, and therefore it will pay for you to learn something about the value of faith and the power of positive thinking.

Saturn In 3rd House

PROFESSIONAL - SELF-RELIANCE: Educate yourself
Education, ease of expression and intelligence are high priorities for you. You work hard and are extremely conscientious, as it is important for you to feel respected for your abilities. When you overcome a lack of self-confidence as regards your intellectual prowess you will succeed in a profession where mastery of information is important. Despite early fears you will continue to meet mental challenges, perhaps taking training courses quite late on in life to develop your abilities. Your realism can be invaluable in meetings... you are the type who likes to be sure of the facts, before drawing any conclusions. When

you express an opinion, it is well thought out and generally carries the weight of experience.

PERSONAL - SELF-RELIANCE: Educate yourself
Family influences - particularly in connection with a brother or sister - and early painful experiences at school will have had a rather traumatic effect on your mental development. Your confidence in your intelligence will have been undermined, and you can feel uncomfortable when you meet people. Light conversation does not come naturally. Under pressure a sudden mental block descends, and fear of appearing dim-witted obstructs the mental flow. You work twice as hard as anyone else just to be sure you are not going to be shown up mentally. Mental confidence rarely comes before the age of 30, and if you have given up on an education as a young person, you may take it up again after this age. Your concern with getting the facts right can hinder your ability to get an overall view - often you can't see the wood for the trees. You can become an authority on a specific subject.

Originality

Uranus In Leo

COLLECTIVE - ORIGINALITY: Collective identity
Uranus takes 84 years to orbit the Sun and is in this sign for 7 years, representing a collective influence on a whole generation. It shows how you are most influenced by revolutionary attitudes in society. When the Ascendant is in Aquarius this influence will be expressed in a more personal way.

Uranus went through this sign in the years 1956 to 1962, and will do so again from 2040 to 2046. These eras usher in radical changes in society through the influence of particular individuals, who somehow touch a collective chord in society. These changes are most apparent in the field of entertainment with the collective identification of hero and heroine figures. Style and fashion make a big impact on the collective psyche of the time.

Inasmuch as you reflect this collective influence in a personal way, there will be an unusual aspect of your identity or personal style which makes an impact on your environment. You will accentuate the importance of being an individual and doing your own thing, and this will involve considerable personal freedom. You believe in your right to have enjoyment in your life, and will react violently to any restriction on your freedom to be yourself.

Uranus In 10th House

PROFESSIONAL - ORIGINALITY: Make your vision real
Career satisfaction will come to you when you feel you are working with something really original. You may have a professional interest in future-orientated matters, modern technology, international travel or humanitarian issues. If your work is too conventional, you may easily become bored - you have a strong professional need for excitement. It is difficult for you to thrive under the leadership of others, as you are an innovator who wishes to see old things done in new ways. This can lead to sudden professional conflicts, which may result in radical career changes - particularly around the

age of 42. At some point in your life you may turn away from being employed by others and strike out on your own in an untraditional area. This may be connected with New Age interests. But as long as you are employed, it can be necessary for you to learn from the professional experience of others, instead of instigating renewal.

PERSONAL - ORIGINALITY: Make your vision real
You like to manifest yourself and your talents in a unique way, and this can make you a rather unusual and even provocative person in society. You have probably inherited this propensity to be unconventional from one of your parents. Radical and unexpected changes in your childhood have awoken in you a sense of the unpredictable. You know that you cannot rely on stability in domestic or career matters, and this gives you a flexible or experimental attitude towards life. In partnership matters you would appreciate support for your need to branch out on an original direction in life, and a partner who can accept your embracing a role in which you have a radically different status in the eyes of others. You may have technical and engineering talents.

Please read page 11: "Mars Square Uranus"

Transcendence

Neptune In Scorpio

COLLECTIVE - TRANSCENDENCE: Transmutation
Neptune takes 165 years to orbit the Sun, and approximately 14 years to go through one sign. Its influence affects a whole generation, and is associated with a new sensory and spiritual awareness, and greater compassion, in connection with the sign it is in. For most people this influence is experienced on a collective level, but those who have their Ascendant in Pisces will express it in a personal way in their lives.

Neptune was in Scorpio from 1793 to 1806, and again from 1955 to 1970. There was a deep collective awakening of hidden emotional drives at this time, especially activated by musical developments and the influence of the media. The deepest fears of humanity seeped to the surface, and people were forced to develop new attitudes to death and destruction - a process which on the one hand enriched society on a spiritual level, and on the other created a certain mass hysteria.

If you channel this collective influence in a personal way, you will have a deep fascination with hidden and taboo matters, and with sexuality and the occult. At the same time there may be musical or magical talents which enable you to mobilise hidden powers to awaken others. Your search to satisfy your desires turns out to be a spiritual dead-end, and you learn quickly that the more you fan the flames of desire, the brighter burns the flame. Greater satisfaction is attained when you use your talents on a higher emotional or spiritual level.

Neptune In 2nd House

PROFESSIONAL - TRANSCENDENCE: Refine personal values

You have a rather haphazard attitude to material values - you may be quite successful at accumulating worldly goods, but they have very little meaning for you.

Experiences early on in your career convince you that it is no use selling your soul for material benefit.

Professionally it is not the lucrative offer that catches your interest, it is more the ability to use your fantasy and imagination - and these are great personal assets. You have a talent for finding unusual solutions to material problems. You may find material success connected with advertising, film, the oil or chemical industry, or in caring professions. You have a "liquid" attitude to money, and if you are not careful you can be called to account for poor financial administration.

PERSONAL - TRANSCENDENCE: Refine personal values

You are well aware of the idea that money does not bring happiness, and experience tends to bear this out for you. Material loss will have profoundly affected your values at some point in your life, and as a result you hate to prostitute yourself for material gain. Nevertheless you often dream of attaining wealth, and success in this area would be no problem, as you remain unattached. There may be special circumstances in your life which drain your finances - keep an eye on your money! In partnership matters there can be a drain on your finances through some economic folly based on false idealism, or some issue which you refuse to confront. You prefer to live in blissful ignorance about your finances, and you will pay for this.

Neptune Sextile Pluto

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

When reading the following description, please bear in mind that you are a fast learner and overcome any difficulties involved very quickly. You can expect to use this aspect constructively and harmoniously.

PROFESSIONAL - TRANSCENDENCE: Mass vision

These aspects are very rare and last a very long time. Indeed, as Pluto moves within the orbit of Neptune in the

closing years of the 20th century, the present sextile aspect between the two planets lasts from 1940 to 2040 - one hundred years - so almost everyone has it! If you are able to manifest this influence on a personal and professional level (through powerful contacts in your own horoscope), it may be connected with a deep spirituality and creativity. There can be talent for dealing with the media and wide-ranging themes connected with the masses. Material issues will be less important for you than the realisation of a collective dream. There can be clairvoyant powers, and abilities connected with dreams, symbols and visualising. In industry there can be a talent for dealing with oil, the film industry or the transforming power of collective visions.

PERSONAL - TRANSCENDENCE: Mass vision

If you have this influence powerfully evoked by other factors in your horoscope, you will be deeply affected by spiritual issues, and constantly seeking to refine your consciousness. At these times you are likely to experience great personal disorientation and confusion, as old dreams and visions are replaced by new, deep psychological insights. Inner growth will have major priority in intimate relationships. During periods of your life you will undergo deep transformations in which your fantasy and imagination will play a powerful role. It is essential to learn to use your imagination in a positive way by learning about the power of the unconscious.

COLLECTIVE - TRANSCENDENCE: Mass vision

The Neptune/Pluto planetary cycle is connected with spiritual evolution on Earth and whole generations share this present harmonious aspect which - lasting as it does from 1940 - 2040 - is connected with a deep spiritual transformation process affecting the whole of human consciousness.

Neptune catches up with Pluto every 492 years, in what can be considered a spiritual seeding period for our planet. New collective ideas emerge at the start of this cycle, evoked by sudden developments of the technology and discoveries of the time. The major conjunctions since the birth of Christ were 411 AD, (disintegration of Roman empire), 904 AD, 1398, and 1891-2. This last conjunction in the sign of Gemini may therefore partly relate to the revolution of transport (flight and automobiles) and communication (radiowaves) which has such immeasurable effects on our consciousness today.

Neptune Conjunction N. Node, Neptune Opposition S. Node

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances.

This connection between two planets shows a fusion of two principles for good or ill. You integrate quite different energies and express them as one process. This manifests as a strong personal character trait.

PROFESSIONAL - DESTINY: Living a dream

Though you tend to keep yourself on the outskirts of the organisations and groups which constitute society, you may be able to exert a quiet influence on the collective

mood through your deep concern or high ideals about human life. You may have Utopian principles with completely unrealistic dreams about human nature and social relationships, but you do have a guiding vision for humanity. You may have the ability to channel collective visions through the power of the media. People project their hopes and dreams onto you.

PERSONAL - DESTINY: Living a dream

Your life is a journey in search of the unattainable. You are guided by feelings and intuitions which go completely beyond your personal ego, and you may feel - or long for - a sense of connection with eternal forces in the universe. During the whole course of your worldly existence you are reminded of the emptiness of so-called reality. Many disappointments arise to remind you of the futility of worldly ambition, and the field of human relationships is pervaded by an aura of dissatisfaction. You are in the world, but not of it.

Transformation

Pluto In Virgo

COLLECTIVE - TRANSFORMATION: Servitude transformation

Pluto has an irregular orbit around the Sun which takes about 248 years. When Pluto is closest to the Sun it takes only 12 years to traverse a sign. When it is furthest away, it takes approximately 30 years. Its influence is felt collectively on a very deep level in society, bringing trauma, transformation and renewal in regard to the sign it is in. Individuals with their Ascendant in Scorpio may express this influence in a personal way, otherwise its effect is expressed as an underlying influence on a whole generation.

Pluto was in Virgo from 1711 to 1725, and again from 1957 to 1971. Major transformation in employment trends took place at these times because of developments in technology which undermined traditional crafts and professions. These changes had a profound affect in both the factory and the land through industrial and agricultural reform. Socially there was a greater emphasis on services and health reform, with new developments - and a certain fanaticism - as regards hygiene and cleanliness.

If you are able to channel this collective influence in a personal way you may have certain interests or talents in matters of health. You are especially aware of the interrelation of body and mind, and may have some troubling ailments as a result of this interplay, or as a result of oversensitivity to additives and impurities in food or other substances which you encounter in your daily life. Daily relations with friends in your place of work may also force you to re-evaluate social bonds. Difficulties in securing employment, or a feeling of being misused at work may force you to change direction in your profession. You have the capacity to enact deep-seated changes in social service functions in society.

Pluto In 11th House

PROFESSIONAL - TRANSFORMATION: Social reform
You have the capacity to take on many roles in your life, assuming the professional guise which is expected of you under any given situation. You may have the ability to work as a reformer and as such you could achieve a position of power in a social group of some sort. You believe in the idea that power corrupts - probably because of a number of experiences of power misuse in your early life - and this is one of the motivational factors in your experience of the social forces in society. You tend to make a little too much out of conspiracy theories. You have the ability to root out social corruption, and restructure social organisations. It should however be said that in this process you have a tendency to acquire exactly the kind of power you despise so much. So it is important to guard against dictatorial tendencies in yourself. You may have a talent for dealing with groups on a psychological level - and you are quite fearless as far as emotional confrontations in groups are concerned.

PERSONAL - TRANSFORMATION: Social reform

Early in life you will have formed strong opinions about the influence of groups on the individual. This may be connected with a traumatic experience of alienation at school. You have a social survival strategy in which you have a tendency to amputate the bonds between you and a particular group or friend when under pressure. You cultivate the attitude that you can survive without them if necessary, and of course you can - at the price of feeling even more socially alienated. You often form bonds to friends who are in deep emotional trouble, and you are very good at helping them over a crisis. Later, however, these same friends can disappear mysteriously from your life, or you can suddenly withdraw because the bond is too much of a strain. There are a lot of psychological issues here, and if you sometimes feel that you are up against a world which has evil intentions, it might pay to work with these issues in some kind of personal development group.

Destiny

N. Node In Libra, S. Node In Aries

PROFESSIONAL - DESTINY: Two to tango
The early part of your professional life is characterised by a strong need to excel and make some impact in a unique way. There is an emphasis on your personal independence, and you have the tendency to go it alone in your career. There is a desire to be number one in what you do, and in the early stage of your career you make

dynamic efforts to achieve a special individual status. However, you are likely to discover that career satisfaction eludes you, when you attain personal success, and that success itself is difficult to attain alone. It is your destiny to subordinate your ego needs to a growing awareness of the importance of professional relationships. Personal advancement alone cannot satisfy you in the long run. You achieve far greater satisfaction when you involve yourself in co-operative ventures and share successes with other people who are on your wavelength.

PERSONAL - DESTINY: Two to tango

A major dilemma in your life is in finding a balance between listening to and acting upon your own personal needs as opposed to taking into consideration and compromising with the needs of others. You are inclined when young to exclusively follow your own inner voice, reasoning that you must take care of yourself first. You insist on your independence, and see compromise as weakness. However this independence can bring loneliness or emptiness, and a deep longing arises to share your life's experiences. A transition comes in which the emphasis shifts towards awareness of the needs of others, and in partnership matters you will desire to make a stronger commitment. By embracing the challenge represented by dealing with another on an intimate level, and by exchanging hollow independence for an enriching partnership, you attain a new harmony in your life.

N. Node In 1st House, S. Node In 7th House

PROFESSIONAL - DESTINY: Regain personal initiative
Finding the balance between whether to invest your energy in your relationships rather than personal development is a major life-theme for you. On a professional level this theme may express itself in the fate of important partnerships, where overdependence, and a tendency to compromise concerning your personal convictions, can lead to failure. Success may well depend on you having the courage to go it alone, although you may be well into your thirties before you learn this. You will learn that it is no use for you to play second fiddle, because this tends to paralyse your autonomy. You cannot let your professional fate rest in the hands of others, and this requires shouldering a leadership role or being independent.

PERSONAL - DESTINY: Regain personal initiative
You have a tendency to involve yourself at an early age in a fairly long-term intimate relationship. Whilst this at first offers you considerable security, later on the loss of personal freedom tends to grate. You will find that the more you give, the more you are taken advantage of. A turning point comes - particularly at the age of 37 - when you find you no longer can accept living on another person's terms. Happiness comes when you direct your attention to fulfilling truly personal needs, even at the risk of being thought selfish. By concentrating on self-development you achieve an inner balance which makes relationships more successful, and you break with inherited and old-fashioned attitudes about partnership.
